The NARFE Dues Referendum failed to receive the necessary two-thirds majority of votes cast therefore was defeated: 65.41% for and 34.59% against.

Senate leadership compromised to get the 60 votes

needed to pass health care reform and contains language suggested by NARFE to safeguard FEHBP. This language was added by the Senate responding to concerns NARFE and federal-postal organization allies raised regarding OPM playing a significant role in national health care reform - partially administering a health care delivery system consisting of at least two national, private nonprofit insurance plans.

The negotiated compromise by Senate leadership to get the 60 votes needed to pass health care reform contains language drafted and suggested by NARFE that would safeguard the FEHBP. The compromise will be added to the bill through the approval of the 338 page managers amendment which includes the OPM administered multi-state health plans and following several FEHBP protections. Senators voted 60-39 to accept the manager’s amendment clearing the way for one procedural vote and a final vote on the legislation on December 24.
